7.	Purpose of the processing	The corporate website is the EDPS' most important communication tool. Via its website, the EDPS communicates its work such as its Opinions, data protection news and information about data protection rights to the general public as well as to expert audiences. Some features of the website are used to collect personal data in the context of the EDPS activities. In particular the website implements: • an EDPS contact form; • a form to send complaints to the EDPS, as supervisory authority of the EU institutions, bodies and agencies (EUIs); • a form for the EUIs to notify personal data breaches based on the Regulation (EU) 2018/1725 ('the Regulation); • multiple forms for events registration. Personal data collected via the above-mentioned forms is subject of processing activities covered by other records, which are available in the EDPS register. The IT services of the EC, may process website connection logs for information security purposes, primarily the IP address of the web client and the requested web resource. AWS support teams can only access customers data on the basis of an authorisation and request from the EC for specific support requests. Such access would be limited both in terms of duration and data accessed, as defined by the EC's request.

12.	General description of security measures, where possible.	In order to protect personal data necessary for the purpose of the processing operation in question, the European Commission has put in place a number of technical and organisational measures. Technical measures include appropriate actions to address online security, protect server hardware, software and the network from accidental or malicious manipulations and risk of data loss, alteration of data or unauthorised access, taking into consideration the risk presented by the processing and the nature of the personal data being processed. All related operations abide by the European Commission's Decision (EU, Euratom) 2017/46 of 10 January 2017 on the security of communication and information systems in the European Commission. Inside the Commission, the data can be accessed by designated Commission staff with a user ID and a password. Organisational measures include restricting access to personal data solely to authorised personnel with a legitimate need to know for the purposes of this processing operation. Such staff abide by statutory, and when required, additional confidentiality agreements. Furthermore, all European Commission processors are bound by a specific contractual clause for any processing operations of personal data on behalf of the Commission, and by the
