7.	Short description and purpose of the processing	<p>The DPOs (and their deputies, if any) are the first relay of the EDPS as data protection supervisory authority for the EUIs.</p> <p>After their designation, DPOs must be registered with the EDPS by the EUI which designated them. In addition, EUIs must communicate the contact details of their DPO to the EDPS (Articles 43(5) and 44(9) of the Regulation (EU) 2018/1725 ('the Regulation').</p> <p>DPOs (and their deputies, where appropriate) are key in enabling the EDPS to exercise his tasks and powers under Articles 57 and 58 of the Regulation. In this context, the EDPS must be able to reach out either to DPOs individually (for matters that concern only their EUI), or to the DPO network as whole when it comes to matters of relevance for all EUIs (biannual EDPS-DPOs meeting, EDPS surveys on specific data protection topics, submission of draft EDPS guidelines for consultation, etc.).</p> <p>The list of the members of the DPO network enables the EDPS to keep track of the EUI's obligations as to the DPO designation and to exercise its tasks and powers under the Regulation. This list also enables the EDPS to reach out to the network for communications that are relevant to the entire network.</p> <p>The list is also made available to the DPO network on the EDPS wiki for DPOs, which is available through EU-login and with the permission of the EDPS.</p>
