### **THE EUROPEAN DATA PROTECTION SUPERVISOR,**

Having regard to the Treaty on the Functioning of the European Union,

#### **1. Introduction and background**

1. On 16 September 2024, the European Commission consulted the EDPS on the draft Commission Implementing Decision amending Implementing Decision C(2019)2866<sup>2</sup> as regards the update of the standard forms and the service level agreement ('the draft Implementing Decision').
2. Regulation (EU) No 904/2010<sup>3</sup> lays down rules and procedures to enable the competent authorities of Member States to cooperate and to exchange with each other any information to assess and control the correct application of VAT rules. The standard forms require regular updates to maintain their relevancy and usability by tax authorities for the purposes of Regulation (EU) No 904/2010 to request and provide feedback on VAT information following a request for information and for administrative enquiries, as well as in case of a spontaneous exchange<sup>4</sup>.
3. Furthermore, Article 53 of Regulation (EU) No 904/2010 provides for the adoption of a service level agreement ('SLA') ensuring the technical quality and quantity of the services to be delivered by the Commission and the Member States for the functioning of the communication and information exchange systems as provided for in the Regulation<sup>5</sup>.

<sup>6</sup> In case of other implementing or delegated acts with an impact on the protection of individuals' rights and freedoms with regard to the processing of personal data, the EDPS would like to remind that he needs to be consulted on those acts as well. The same applies in case of future amendments that would introduce new or modify existing provisions that directly or indirectly concern the processing of personal data.

<sup>7</sup> Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (Text with EEA relevance), OJ L 119, 4.5.2016, p. 1.

forms by tax authorities for the purposes of Council Regulation (EU) No 904/2010. These new fields are, in particular:

11. The EDPS considers that these new data fields do not raise concerns from the data protection point of view, therefore the EDPS has no specific comments.

### **2.3. Service Level Agreement (Annex II)**

12. Article 53 of Council Regulation (EU) No 904/2010 specifies that the Commission and the Member States must ensure that existing or new communication and information exchange systems which are necessary to provide for the exchanges of information described in Council Regulation (EU) No 904/2010 are operational. The same provision calls for the establishment of a SLA ensuring the technical quality and quantity of the services to be delivered by the Commission and the Member States for the functioning of those communication and information exchange systems.

13. The EDPS notes that Annex II to the draft Implementing Decision provides updated technical details of the SLA. In particular, the updated SLA adds to the current version of the SLA the following systems: the Central Electronic System of Payment information ('CESOP')<sup>11</sup>, Transaction Network Analysis ('TNA')<sup>12</sup>, VIES-on-the-Web<sup>13</sup>, the Small Enterprise Special Scheme<sup>14</sup> and the Electronic Forms Central Application ('eFCA')<sup>15</sup>.

14. The EDPS recalls the need to ensure clarity regarding the data protection roles and responsibilities of the Commission and of the Member States competent authorities having regard to the determination of the purposes and means of the processing of personal data. In this regard, the EDPS positively notes that such clarity has been provided by way of other implementing acts, at least for certain systems<sup>16</sup>. The EDPS recommends ensuring that a clear definition of roles and responsibilities is in place of all systems<sup>17</sup>.
